YOUSSEF ATIA

COMPUTER SCIENCE STUDENT

Cairo - El Matarya - Hamed Shehata 78|youssefatiav@gmail.com| github.com/YoussefAtia17 | www.linkedin.com/in/youssef-atia-90b2a7373

SUMMARY

Motivated Computer Science student passionate about software development, AI, and IoT. Seeking internships or collaborations to apply technical skills, build impactful projects, and grow as a professional developer

PROFESSIONAL EXPERIENCE

Event Organizer – GIS Event **Mar 2024**

- Assisted in organizing & coordinating a Geographic Information Systems event.
- Developed teamwork, communication, and organizational skills.

PROJECTS

MoneyPhi – AI-Powered Expense Tracking App **Feb 2025**

- Built an expense tracking web app integrating Gemini API for predictions.
- Implemented interactive graphs using Chart.js with professional UI/UX.
- Features: Login/signup system, expense prediction, investment suggestions.

Smart Home with AI & IoT **Apr 2025**

- Designed a smart home system integrating Raspberry Pi 5 + Arduino R4.
- Features: AI-powered face recognition (Supabase), RFID & fingerprint access, IoT sensors (gas, flame, smoke, motion).
- Integrated AI voice assistant with n8n automation for smart device control.

Cryptocurrency Exchange Platform **Oct 2024 – Jan 2025**

- OOP project in C++ simulating core functionality of a crypto exchange.

SKILLS

C++	HTML	MySQL
SQL	Python	PostgreSQL

EDUCATION

Egyptian Chinese University (ECU) **Expected Graduation: 2028**

- Specialized in Object-Oriented Programming, C++ Development, and Software Engineering.

ADDITIONAL INFORMATION

- **Languages:** Arabic , English.
- **Certifications:** Data Preparation in Excel (DataCamp), Data Management and Analysis (Huawei), Marketing (HP Life) , OOP & Data Structure (Programming Advices) .
- **Awards/Activities:** Member in ECU student community for programming and technology, Active in self-learning and exploring new technologies (AI, IoT, Backend Development).
